Opinion	Mervyn King's "nice" debut	1
People	Central bankers in the news and on the move	3
Banknotes	A round-up of news and salient issues that have affected central bankers in the last three months.	7
News Analysis	<i>Central Banking</i> staff examine four topical developments: the Iraqi currency conversion, the governance revolution at the central bank in New Zealand, governors' pay, and Europe's windfall profits from its former currencies.	15
Why central banks need financial strength	Central bank balance sheets do not lend themselves to easy comparison. But adequate financial strength is crucial to a central bank's ability to execute policy credibly, maintain independence and fulfil its mandate, argues Peter Stella of the World Bank.	23
The looming crisis in international payments	The build-up of net US external liabilities threatens the international monetary system, contends Robert Aliber. But how, when and where will adjustment occur? Dollar holders beware.	30
The Duisenberg years	Under Duisenberg, the ECB's record on inflation has been impressive. However its success is overshadowed by a dogged defence of a monetary framework inconsistent with policy, concludes Charles Wyplosz.	34
How will Trichet speak?	Coping with national budget deficits and rotational voting will provide early tests of the new ECB president's communication skills. Will Trichet's suave manner survive the Frankfurt spotlight?	38

Reinventing euro-area central banks	Monetary union has led to an identity crisis for Europe's national central banks. But delivering price and financial stability is more than simply setting interest rates, says Max Watson. NCBs should build on their specialist knowledge and market contacts.	41
Can central banks be efficient?	What are a central bank's "core tasks" and how can performance be measured? Neil Courtis finds out how leading experts and practitioners approach the challenges of improving management of central banks.	47
Interview: Lars Svensson	Inflation targetting is in vogue, but does it have all the answers? Lars Svensson discusses the success of this fashionable regime to date and how it might be improved in the future.	51
Reports from Dubai	<i>Central Banking's</i> correspondents report from some of the engaging events and workshops – which didn't necessarily grab all the headlines – at this year's meeting of the IMF and World Bank.	60
What next for the G20?	The composition of the G20 makes it the ideal forum to tackle key issues of international finance, suggests Marc Uzan. In this article he looks at how it can make a meaningful contribution to international monetary stability.	74
Investment portfolio techniques at a central bank	Etienne Lavigne, head of the middle office at the National Bank of Belgium, shows how a central bank can incorporate portfolio techniques into its reserve management framework to take on new risks and improve performance.	77
Booknotes	Martin Paldam reviews Peter Bernholz's comprehensive history of the consequences and causes of hyperinflation.	87
On the record	<i>Central Banking</i> reproduces the text of Mervyn King's first speech as governor of the Bank of England.	90
